### **DETAILED ACTION**

Applicant's election without traverse of Group I, claims 1-13 in the reply filed on 10-10-2007 is acknowledged.

Upon further review of the elected claims, it is determined a further election of species is necessary as set forth in the following:

#### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

Species a. Figs. 1 and 2; and

Species b. Figs. 3 and 4.

The species are independent or distinct because they are mutually exclusive and are not obvious variants of each other.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic since the disclosure does not appear to support moving the mandrel with a media sleeve mounted thereon between the storage position and the imaging position as recited.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an

allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
